

582 BLACK CARRYING CASE

For nearly 40 years the Calgaz brand has been synonymous with unsurpassed quality, reliability and service. Our passion for quality is demonstrated in every product we ship. This commitment is what sets us apart from every other calibration gas provider. Calgaz remains the industry leader because our customers continue to have complete confidence in the accuracy and reliability of our calibration gas products.

Calgaz creates partnerships with our customers in order to understand their needs and provide solutions that exceed their expectations.

If it's important to our customers, it's important to us.

FEATURES

This case is designed with durable double-walled construction and a convenient shoulder strap. It allows the user to safely and comfortably carry up to two Calgaz cylinders along with a maximum of four regulators in any combination, as well as tubing.

It will hold up to two of the following Calgaz cylinders: Calgaz 34, Calgaz 34s, Calgaz 58, Calgaz 58s, Calgaz 105s and Calgaz 116.

This Calgaz case provides a number of benefits:

- Durable double-walled construction
- Improved latch system for enhanced security
- Integral foam block houses and protect regulator(s) during shipment
- Regulator can be used while inside the case
- Exterior opening permits tubing to be routed outside the case
- Includes a detachable shoulder strap
- Comfortable molded handle with finger grips
- Back of case has knock-out openings which allow for wall mounting

Material

Black plastic – high density polyethylene

Specifications

Length 21.8" (overall)

Width 13.9"

Door opening 8.8" (from bottom of case to center split)

* Picture shown is a kit. When purchased as a kit it may contain one or two calibration cylinders, regulator(s) and appropriate tubing.
